

## Introduction SCB-VL

The Surface Control Box with video/light controller (SCB-VL) is in combination with camera's and lights an underwater CCTV system. The system can control 1 or 2 video cameras in combination with 1 or 2 lights. The System can be supplied with up to 400 m of reinforced underwater cable. The topside SCB can be connected to a recorder or a monitor. The camera is a colour, low light camera. The light is a LED light with a near daylight colour temperature of 6500 K. The light is dimmable from 0-100%.

### Technical specifications:

- LED-light control
- Video over twisted pair and coax controller.
- 2x Video output
- 100-240 vac powered

### SCB configurations:

- SCB 1VT1L6 SCB with Single camera over twisted pair and single LED 6 light controller
- SCB 1VT1L18 SCB with Single camera over twisted pair and single LED 18 light controller
- SCB 1VT2L6 SCB with Single camera over twisted pair and dual LED 6 light controller
- SCB 2VT2L6 SCB with Dual camera over twisted pair and dual LED 6 light controller

**Optional:** Reinforced cable
