

SCUXS-xVL Rack Mount Video & Light Control

KRATOS-R1 | 2 or 4 Channel 19" Rack Mounted Video & Light control for 2 to 4 channels.

The KRATOS-R1 is a 19-inch aluminium case that can be mounted in standard 19-inch racks. It contains video and light control for up to 4 channels. The front of the panel has the potentiometer and the camera switch. On the back are all the connections for umbilicals or cables. This unit is best combined with other **NOVASUB** rack units. The unit can also be upgraded with a depth integration. This gives the possibility to connect digital depth sensors to the unit which can be displayed in the DVR3 video system. *Please note that this only works in combination with the SCU-DVR3 from Novasub.*

front (4 channels)

back (4 channels)

side

Modular configurations possible in combination with NOVASUB 19" rack units.
